

Driving Directions to the KLT's Pilgrim Community Forest

From Hancock:

1. Head South on US-41, across the Lift Bridge
2. After the Yooper Loop, turn Right onto Bridge Street and head up the hill
3. At the 4-way flashing light, continue straight through Hurontown
4. After 0.5 miles, turn left onto Paradise Road
5. In 1.6 miles, Paradise and Pilgrim Roads meet. The trailhead is on the western side of Paradise Road just behind the guardrail where these two roads converge. A small sign will help guide you to the trailhead.

Note: There is no official parking area, so parking is limited to the shoulder. Please be aware of passing traffic on this steep, curvy road! We advise you park on the shoulder of Pilgrim Road, which has fewer passing vehicles. All roads in this area are plowed year-round; however, you must park on Pilgrim Road in winter for your safety. Enter these coordinates into your GPS device for assistance on finding where the trail begins: 47.086770, -88.552824.
