

Driving Directions to the KLT's Paavola Wetlands Nature Area

From Hancock:

1. Head North on US-41 towards Calumet
2. Stay on US-41 for about 4 miles (1.6 miles north of the blinking traffic light by Quincy)
3. Turn Right onto Paavola Road before the junction of Boston Road, Pontiac Road, and US-41.
4. Make an immediate left onto Mesnard Location Road, follow to the end and continue onto No. 9 Road (cut off from US 41 summer of 2020)
5. Continue on No. 9 Road for 0.9 miles
6. The main Paavola Wetlands parking is a half-circle drive on your Left with trailhead & outhouse.

Note: The parking area is suitable for many vehicles. However, please do not block the loop in case large vehicles need to turn around. The main trailhead is located at coordinates 47.156177, -88.537018. Enter these into your GPS to find the parking area more easily. A smaller, west trailhead (the original Paavola trailhead) is located on No. 9 Road as well but offers no connectivity to the handicap accessible trail network. In winter, neither trailhead is plowed but you may park along the shoulder.
